

## Clinician Self-Referral Disclosure Form

The DEA EAP only provides you and/or your family with up to 6 counseling sessions to help resolve your life circumstance or occupational problems. After you have completed the EAP sessions you are discharged from the EAP program and your case is closed. One of the options available to you or your family is to continue counseling with the therapist you worked with during the EAP sessions.

Your decision to continue in counseling with the therapist is made by you or your family member without coercion or undue influence from the EAP therapist or TCTI, and does not obligate the DEA EAP financially. Federal law requires that you be informed of any financial interests or investments involving the therapist and TCTI. TCTI has no financial interest or investment in the outpatient services performed by \_\_\_\_\_ after discharge from the DEA EAP. However, \_\_\_\_\_ is the owner of the clinic you will receive outpatient services from and will profit from those services.

You have the option to receive outpatient services, after discharge from the EAP, elsewhere and if you require assistance locating a different therapist than the one you have been working with please call the EAP at 800-275-7460,

Please sign the statement below indicating that you understand your options for continued services beyond those authorized by the DEA EAP.

I agree to receive outpatient services, beyond those authorized by the DEA EAP, from \_\_\_\_\_. I understand that my medical benefits plan and I will pay for these services. I also understand that TCTI has no vested financial interest in \_\_\_\_\_ practice. Finally, I understand that \_\_\_\_\_ has invested in this clinic and will profit from all services rendered to me on an outpatient basis.

Date: \_\_\_\_\_

Client Signature: \_\_\_\_\_

Client Printed Name and Address: \_\_\_\_\_
